ENCHILADAS Vs BURRITOS

In appearance both enchiladas and burritos look alike but they are different in the contents, taste, and flavour. One of the main differences between enchiladas and burritos is in the type of tortilla used. While corn is used for making enchiladas, wheat flour is used for making burritos. The corn is filled with beef, cheese, chicken, and other things which go into the making of enchiladas. In burritos, the wheat flour is folded around a filling.
